

Pellet Machine

According to the power source, it can be divided into

Feeds pellet machine

- Power by electric motor
- Power by diesel engine
- Power by gasoline engine
- Power by PTO shaft

Electric model

Diesel model

Gasoline model

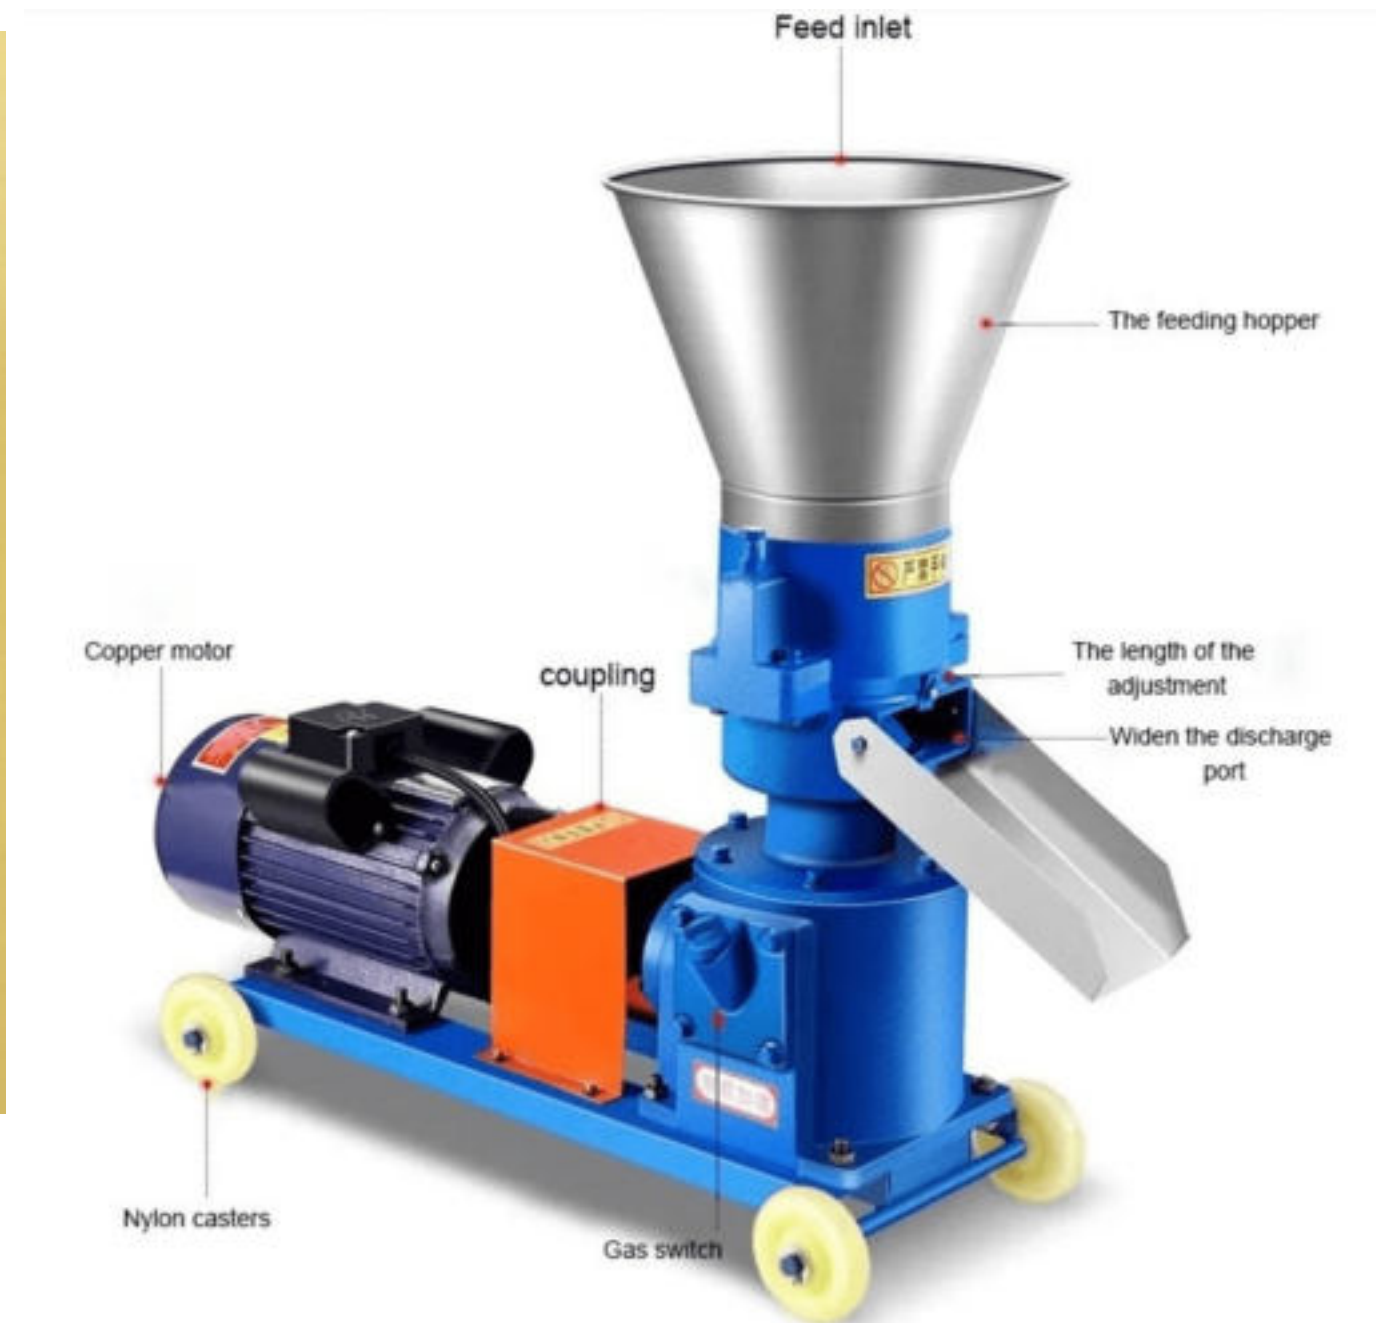

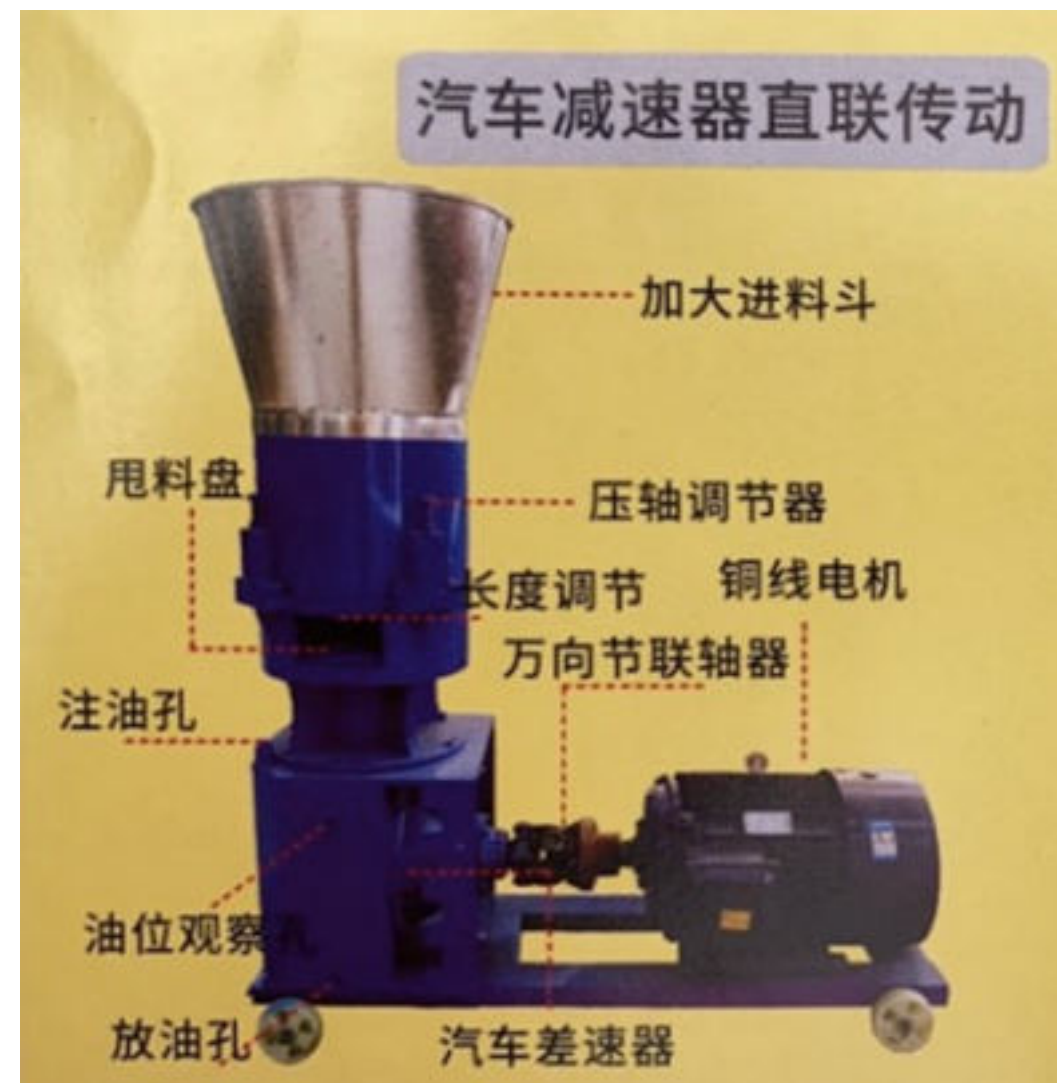

PTO peletizadora

According to the power link, it can be divided into

Belt pulley link

Reducer gear transmission

Direct transmission

Specification

Pellet Machine	Yield	Engine	Electric Motor	Weight	Size
Model	(kg/h)	(hp)	(kw)	(kg)	(cm)
125	60~80	8	4	75	75x32x70
150	90~150	8	4	85	78x33x77
160	100~170	8	4.5	92	80x34x78
210	200~300	12	7.5	180	100x43x95
230	300~400	12	11	265	118x58x112
260	500~600	15	18.5	320	126x46x115
300	800~900	15	22	460	138x55x125
400	1400~1800	15	30	800	160x80x170

Please note the yield will different depend on the material type, degree of dryness and wetness of forage, the speed of forage transfer into machine, motor kw etc.

According to the requirements of different feed and feed grain hardness requirements of different selection

Corn Pellet

Fish Meal Pellet

Oil Pellet

Forest Tree Pellet

Grass Pellet

Meat&Bone Meal Pellet

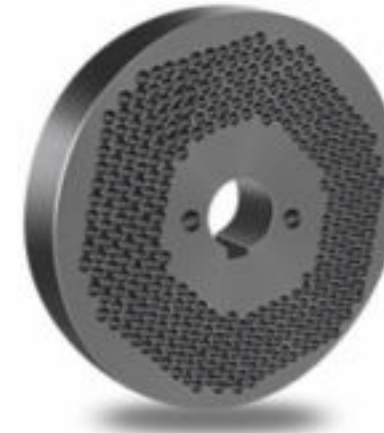

Wooden Pellet

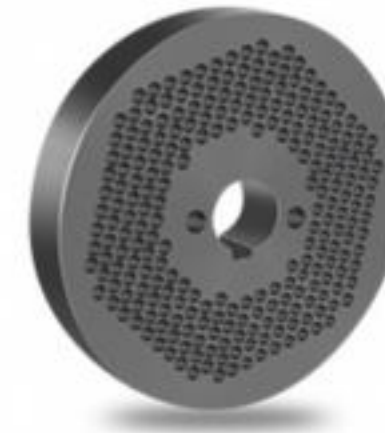

Platycodon Grandiflorum Pellet

Gain Pellet

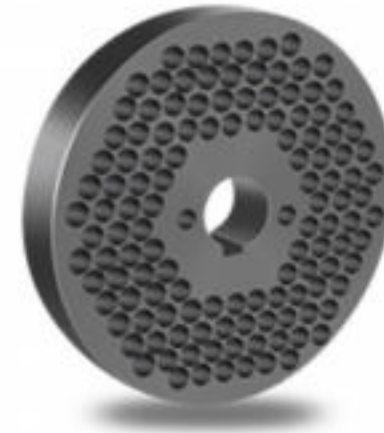

2.5mm

3mm

4mm

5mm

6mm

8mm

ADVANTAGES

- The material of rolling wheel and die hole are manganese steel, wear-resistant and high temperature treatment.
- The weight of the whole machine is large and the stability is increased.
- Corn can be added directly without crushing. The processed particles should have a smooth surface and moderate hardness. Through extrusion to produce high temperature, can kill the general pathogenic microorganisms, parasites, effective prevention of part of the disease; Grain water content is low, easy to store, in water can be a long time to maintain the original state, greatly improve the feed utilization rate.

FEATURES

1. Widely choice on different kind of biomass materials.
2. Pellet in different diameter can customized.
3. Can equipped with Mixer ,conveyor into production line.
4. Different Model to meed client own request.
5. Customized designs for customers.
6. Offer Turn-key service on Pellet Production Project.

APPLICATIONS

2MM millstone suitable for aquatic products, shrimp, small fish, crabs, young birds, etc

The 4MM millstone plate is suitable for chicken, duck fish, rabbit, pigeon, bird and so on

3MM millstone suitable for breeding, young chickens young ducks, young rabbits, young peacocks and so on

5MM millstone suitable for pigs, horses, cattle, sheep dogs and other livestock

THE SERVICES

Spare parts:

A complete range of original spare parts, guaranteed directly.

Warranty:

A precise certainty for the customer's satisfaction: 2-year warranty.

Assistance:

A team of specialists, well prepared and available to assure an efficient and resolving service.

Cooperation

Agricultural machinery industry information and customer marketing assistance.
